

## University of Toulouse 3 Paul Sabatier: Disability support service France

### Case study overview

#### **Students with disabilities**

#### **Disability and higher education, it is possible**

The University Paul Sabatier has a service dedicated to disabled students (étudiants en situation de handicap: ESH). The Mission Handicap (MH) is a one stop shop for EH (étudiants de handicap). Students have available from MH:

1. The MH provides advice on compensations for deficiencies related to the student's disability in the development of their studies.
2. The MH provides support to access various university services (e.g., medical, social, education, housing and accessibility), and with the university's external partners.
3. The MH provides technical assistance and (or) human assistance to students access to education.
4. The MH provides transport on campus with two vehicles adapted for transporting disabled people, and supports such as aid to administrative procedures, document copying, and library support.
5. The MH implements regulations relative to the conduct of examinations and competitions and access to information.

The SALEIE project deliverable report WP 4.2 (Best practice exemplars in supporting students with

---

specific needs) shows more detail of this case study with an information document (in French) on disability support which is provided by the university to students. The document is structured as follows:

1. Responsible persons: contact details.
2. Welcome message.
3. Study information.
4. Examinations.
5. Technical assistance and training materials.
6. Internship search and employability
7. Sports.
8. Accommodation and Transport
